**RE: Caltech Comments Regarding 07/18/2013 Workshop**

Bill,

On behalf of Caltech, I'd like to thank you and the CARB staff for hosting the July 18, 2013 workshop to discuss proposed language providing an allowance allocation to public and private universities with proven track records of early action utilizing efficient CHP. We are pleased with the progress being made and are appreciative of staff efforts to address this issue in a timely manner.

Caltech remains committed to energy efficiency and reducing our carbon footprint and will continue to be an active participant as this proposal makes its way through the rule making process.

Thank you,
